Abid Nasim – MBA, MCP, MCSD, 30+ Years Experience

Certifications	▪ MCP, MCAD, and MCSD since 2004. Certified Azure Architect since 2017.
Skills	▪ Standards, Platforms and APIs: NET 6/8, Java (Jakarta EE), HTTP/2–HTTP/3, RESTful APIs, OpenAPI (Swagger), gRPC, GraphQL, OAuth 2.0 / OpenID Connect, SAML 2.0, HL7 FHIR, DICOM, HIPAA, ICD-10/11, PCI DSS v4, SOC 2, ITGC, SOX, Zero Trust security principles ▪ Design & Architecture: Microservices Architecture, Event-Driven Architecture (EDA), Domain-Driven Design (DDD), API Gateway patterns, Clean Architecture, Hexagonal Architecture, Serverless Architecture, Cloud-Native Architecture, Enterprise Integration Patterns, TOGAF, Zachman Framework.. ▪ FINTECH: IX Protocol (latest versions), ISO 20022, SWIFT MT/MX messaging, Open Banking APIs (PSD2/PSD3), Real-Time Payments (FedNow, SEPA Instant, RTP), Bloomberg EMSX, Refinitiv APIs, FNOL insurance workflows, regulatory frameworks (MiFID II, EMIR).Internet: BIND, DNS, SMTP, POP, IMAP, FTP, SSH. ▪ Internet & Networking: DNS, DNSSEC, HTTP/2, HTTP/3, QUIC, TLS 1.3, WebSockets, SMTP, IMAP, SSH, IPv4/IPv6, OAuth-secured API communications ▪ IoT Protocols: MQTT 5.0, AMQP 1.0, Apache Kafka, RabbitMQ, Azure IoT Hub, AWS IoT Core, OPC-UA (industrial IoT), Edge computing platforms.
Software	▪ Cloud: Microsoft Azure, Amazon Web Services (AWS), Google Cloud Platform (GCP), IBM watsonx. Azure: Logic Apps, Dynamics 365 Integration, Azure Integration Services. ▪ RDBMS: Microsoft SQL Server (2019/2022), Oracle Database 19c/21c, Azure Cosmos DB, Azure Data Lake Storage Gen2, Azure Blob Storage. ▪ Big Data: Azure Data Lake, Apache Hadoop, Azure Databricks, Azure Cosmos DB, Azure Blob Storage. ▪ Data Warehouse: SQL Server Integration Services (SSIS), SQL Server Analysis Services (SSAS), Azure Data Factory, IBM Cognos Analytics, OLAP (Tabular/Multi-dimensional models). ▪ Reporting: SQL Server Reporting Services (SSRS), Crystal Reports, SAP Adobe Forms (Adobe Document Services), SAP SmartForms. ▪ UI: Angular, Bootstrap, WPF, XAML. ▪ Languages: PowerShell 7+, C# (.NET 6/7/8+), F#, C, C++, Java (17+), Python, R, JavaScript/TypeScript, SQL (T-SQL, PL/SQL), XML, XSLT. ▪ Operating Systems: Windows Server (2016/2019/2022), Linux (Ubuntu, Fedora, enterprise distributions), IBM AIX, Oracle Solaris, FreeBSD, IBM i (AS/400). ▪ ALM / DevSecOps: Azure DevOps, Git (GitHub/GitLab/Bitbucket), Jira, ServiceNow, Octopus Deploy, Clarity PPM. ▪ Line of Business (LOB): SAP S/4HANA (SD, FI, CO, MM, HR), SAP SuccessFactors, Microsoft Dynamics 365 (Finance, Supply Chain, CRM), Oracle Fusion Cloud HCM, Trizetto Facets, MEDITECH, Esri GeoMedia, Avalara (Sabrix). ▪ AI / Machine Learning: Artificial Intelligence and Machine Learning using Python, scikit-learn, TensorFlow, PyTorch, Azure Machine Learning, generative AI solutions using Azure OpenAI Service, prompt engineering, natural language processing (NLP), computer vision, predictive analytics, and MLOps practices.
Tools	▪ Tools & IDEs: Visual Studio 2022+, Visual Studio Code, Eclipse, IntelliJ IDEA, Oracle JDeveloper.

Résumé of Abid Nasim

	Management / Administration: Jira, ServiceNow (TSM / ITIL), Azure DevOps, BizTalk Server administration tools.		
Job History	⇒ Sep/2025–current	General Manager, Generalsoft FZ-LLC	RAKEZ, UAE
	⇒ Apr/2023–Mar/2025	Tax Auditor III, Florida Dept of Revenue	Atlanta, GA, USA
	⇒ Jan/2021–Mar/2023	Freelancer, TwoFour54,	Abu Dhabi, UAE
	⇒ Jun/2005–Dec/2020	Staff Architect, Generalsoft Corporation,	San Ramon, CA, USA
	⇒ Oct/1998–Jun/2005	Senior Software Engineer, CGI	San Ramon, CA, USA
	⇒ Jul/1991–Sep/1998	Consultant	International Experience
PROJECTS			
Projects (Generalsoft FZ-LLC)	Jan 2025 – Jan 2025	Website Development	(RAKEZ)
	Custom Web Development. Tools/Technologies: HTML, CSS, JS. Personal Role: Web Developer.		
Projects (TwoFor54)	Apr 2023 – Aug 2023	Recycling App	(Abu Dhabi)
	- Custom Software Development. - Mobile application developer (Android and iPhone) Tools/Technologies: Flutter, FireBase, IoT, AI, Real Time Object Recognition Personal Role: Developer		
Projects (Generalsoft)	Sep 2021 – Dec 2022	App For Hygiene Service Providers	(Abu Dhabi)
	- Custom Software Development. - Mobile application developer (Android and iPhone) Tools/Technologies: Flutter, Microservices Personal Role: Media Consultant & Trainer. Web & App Developer.		
Projects (Generalsoft)	Nov 2019 – Dec 2020	Integrated Clinical ERP with Asset Management (Clinic)	
	- Using AI to verify medical billing, including fraud detection - Using AI to verify diagnostics against claims - Asset tracking with IoT and Azure IoT Hub Notifications Tools/Technologies: IoT, Hololens (AR), AI, BizTalk 2020, LoRaWan, 5G, BT, BLE Personal Role: Azure Architect/PM/Tech Lead		
Projects (Generalsoft)	Feb 2019 – Aug 2020	Dynamics Developer	New York, NY
	- Implemented Customization and Custom Development with Dynamics 365 CRM, integration with Blogger, Field Service Portal, PayPal, ShipStation, MailChimp - Configure ARM Templates Tools/Technologies: Azure, Business Central, Dynamics CRM, Flow, Power BI, SharePoint Personal role: Azure Architect/Tech Lead		

Résumé of Abid Nasim

	Mar 2018 – Dec 2018 BizTalk Consultant Baton Rouge, LA • Implemented BizTalk/IIS hosted REST API, ESB Broker among LOB's, BizTalk 360 Tools/Technologies: Azure, BizTalk, Concur, Hadoop, Oracle HCM, SharePoint, Several Insurance LOB's, SQL Server, REST API, VSTS Personal role: Technical Lead
	Aug 2017 – Jan 2018 BizTalk Consultant Columbia, NC, USA • KB/Training: taught customer and inhouse team(s) subject matter expertise • BizTalk integration: using BizTalk custom pipelines and Orchestrations • API Development for the Dynamics CRM Portal. Tools/Technologies: Azure, IBM Bluemix, Dynamics CRM, BizTalk, Oracle, SQL Server, ASP.NET, BizTalk 360 Personal role: developer/lead; assist team with technical issues
	Feb 2017 – Jul 2017 Cloud Best Practices New York, NY • Build IoT, Big Data, Machine Learning, IaaS, PaaS POC's • Implement Data Lakes Factory, Designer and Power BI, IoT Hub • Hadoop. HDFS, Yarn, MapReduce • IaaS automation for VM, Lab Management. • SigFox, LoraWAN, Raspberry PI LTE • MQTT: FB, Azure, AdaFruit IO • IoT devices virtual and physical for notifications send/receive Tools/Technologies: Azure, Google CS, Amazon AWS, Ali Baba, IBM , Facebook Personal Role: Architect/PM/Tech Lead
	Apr 2016 – Jan 2017 BizTalk Architect Piscataway, NJ, USA • Solve bottlenecks in current implementation • Mentor team on BizTalk best practices • Implement Source Control (TFS, SharePoint 2013) • Administer BizTalk environment's DEV/UAT/PROD/DR • Implement Continuous Integration (CI) • Refactor integration applications to reuse code • Provide Architectural support to developers and management Tools/Technologies: BizTalk 2013 R2, TFS 2013, SharePoint 2013 Personal Role: Architect/Admin/Tech Lead

Résumé of Abid Nasim

	Jan 2016 – Mar 2016 Azure/PowerShell Workflow New York, NY, USA • Microsoft CSP Initiative for Tier 1 Partners • Implemented Subscription/Order to VM/Service provisioning scripting & billing interfaces • Zero-touch, continuous deployment scripting • IoT deployment via CI/CD • Azure AD & ADFS integration via AD Connect Tools/Technologies: PowerShell, Azure, NodeJS, ASP.NET 5 (ASP.NET Core 1), Any OS (Linux/Windows/OSX), TFS 2015 Release Management, IoT Personal Role: Architect & Tech Lead
	Feb 2015 – Dec 2015 BizTalk Migration New York, NY, USA • Knowledge Transfer: 40 plus recorded web training sessions over Skype for Business each around an hour streamed to customer personnel world wide • Migrate BizTalk 2009 applications to BizTalk 2013 R2 • Refactored legacy adapters to BizTalk 2013 R2 WCF-LOB SDK Adapters • Developed zero-touch deployment Continuous Integration with TFS / Octopus Deploy • Refactored SAP meta-data to latest SAP (EHP 7) with SSO (Azure/OAuth) • Wrote CAML Queries to collect KPI data on charting WebParts Tools/Technologies: BizTalk, Dynamics CRM, SharePoint, SQL Server, Team Foundation Server (TFS), Octopus Deploy, SAP, Oracle RDBMS, MQ (MQSeries), Azure, Python Personal Role: Lead Developer. BizTalk 2013 R2.
	Oct 2014 – Jan 2015 ERP Migration York, PA • Knowledge Transfer: one-on-one training provided to replacement consultant over two weeks • Build Corporate Store Apps for Windows Phone & Widows RT applications • Refactored legacy implementation to BizTalk 2013 R2 • Setup Lab Management on Azure/Cloud to run test suites • Azure AD/on-prem AD/Exchange integration Tools/Technologies: Azure, BizTalk, Dynamics CRM, SQL Server, SharePoint, Team Foundation Server (TFS), SAP, Oracle Personal Role: Architect/Lead Developer. BizTalk 2013 R2. ESB 2.3, Azure SDK 2.3.
	Aug 2014 – Aug 2014 PeopleSoft Migration NJ, USA • Integrate PeopleSoft HR v. 8.52 and Exchange 2010 • Built Proof of Concept (POC) to integration Active Directory (AD) schema for Microsoft Exchange 2010 with PeopleSoft • Integration Azure AD with on-prem ADFS Tools/Technologies: BizTalk, MQSeries, PeopleSoft, Exchange. Personal Role: PM/Architect/Lead Developer.

Résumé of Abid Nasim

Dec 2013 – Aug 2014	Enterprise Integration	NYC, NY
• Managed TFS Installation • Developed customizations • Improved configuration management • Validated Production artefacts • Refactored BizTalk solution for zero-touch deployment Tools/Technologies: BizTalk, Elite 3E, IntApp, PeopleSoft, SQL Server, SharePoint/ Team Foundation Server (TFS) Personal Role: Architect/Lead Developer. BizTalk 2010/2013. ESB 2.1/2.2, T-SQL, SSIS.		
Jan 2013 – Dec 2013	Healthcare Exchange	Portland, OR, USA
• Design a Healthcare Exchange based on “Obama Care” initiative. • Dynamics CRM SDK extending IFRAME’s for custom forms with Xrm.Page/Xrm.Utility • Dynamics CRM Ribbon Customization (RibbonDiffXml) • Refactored and ported 5010 implementations to BizTalk 2013. • Created reports generating various HIPAA forms • Created EDI Viewers for HTML 5, Windows Phone. • Deployed document routing on Azure/Cloud for EDI X12 837, 835, 834, 270, etc. • Business rules based on geo-spatial criteria. Tools/Technologies: Team Foundation Server (TFS), BizTalk, Tibco, Facets, SQL Server, SSIS, Cloud (Azure), MQSeries, Trizetto Facets, Microsoft Dynamics CRM, Colibrium, Tableau Personal Role: Architect/Lead Developer. BizTalk 2013. ESB 2.2, SSIS.		
Nov 2011 – Jun 2012	Convert Payment Orders	Seattle, WA, USA
• Converted customers payment system from proprietary and EDI 820 formats to SAP IDOC Tools/Technologies: C#, SAP (ECC 6.0, ABAP, FSCM), BizTalk 2010, EDI 820, SSIS, Dynamics GP, Dynamics CRM. Personal Role: ABAP Developer, Manager, Analyst.		

Résumé of Abid Nasim

Sep 2012 – Dec 2012	Integrate Cruise Ships	Miramar, FL, USA
- Created Plugin for TFS to continuously deploy approved builds using Build Quality - Country Customs reports integration based on GIS data. - Integrate Dynamics CRM build with TFS - Wrote specifications for JD Edwards developers (AS/400). Implemented Host Integration with AS/400. - Integrated new Property Management System (PMS) for 30+ ships in the fleet. Tools/Technologies: TFS, SQL Server SSIS, BizTalk 2009 and BizTalk 2010, ESB, MQSeries, Dynamics CRM, Python Personal Role: Architect/Lead Developer. BizTalk 2009/2010. ESB 2.0/2.1.		
Dec 2010 – Aug 2012	Port/Migrate to BizTalk 2010	Seattle, WA, USA
- Ported BizTalk 2006 R2 solutions to BizTalk 2010. - Used ESB 2.1 toolkit to reduce the number of artifact count. - Scope included all enterprise ERP needs: customer master, orders, billing, e-commerce, vendor management, vendor payments, treasury, credit cards, HR, partner billing/invoices and Supply Change Management - Keywording images/multi-media content with geo-coding. Tools/Technologies: C#, SAP (SD, FI, HCM, FSCM), BizTalk 2010, ESB Toolkit 2.1, SSIS, Dynamics GP. Personal Role: Implementer (Lead Developer), Manager, Analyst.		
Jun 2009 – Nov 2010	ERP Solution for Elahi Electronics	
- Task: Implement Small & Medium Enterprise (SME) ERP Solution - Implemented Authentication, Authorization in SharePoint using FBA - Implemented FAST search (FS4SP): extended search to translate words/figures; integrated with Smart Document tags - Developed Rich Interface Application in Silverlight with WCF RIA Services as client for the ERP - Developed Business Intelligence using SSAS and integration using SSIS Tools/Technologies: C#, SQL Server 2008 R2 (SSIS, SSAS, SSRS), Visual Studio 2010, WPF, Silverlight, Workflow Foundation, WCF RIA Services, SharePoint Server 2010, BizTalk 2009, MQSeries, Dynamics CRM, Dynamic AX. Personal Role: Architect and Lead Developer.		

Résumé of Abid Nasim

Oct 2008 – May 2009	Design/Implement Wiki's (SharePoint)	
- Task: design knowledge management Wiki's for NASA - Implemented Silverlight, AJAX, Excel Service, etc. web parts in MOSS; implemented single-signon for a complex internet/extranet/intranet scenario; implemented configurable compliance workflows - Implemented Enterprise Search and Content Migration Web Parts Tools/Technologies: C#, SharePoint Server 2007, SQL Server 2005/2008, .net 3.5 SP1, Visual Studio 2008, Project Server 2007, Silverlight Personal Role: Architect and Sole Developer.		
Jan 2008 – Sep 2008	MOSS/BTS/TFS/MS Project/ CRM	
- A basic CRM site for Enterprise customers based on account billing from TFS work item; BizTalk sends electronic statements to customers. - Ability to read MS Project MPP files and fill timesheets for employee billable hours and prepare the data for submission to Microsoft Office Accounting 2009 - Implemented ETL tool using SQL Server 2008 SSIS (Integration Services) Tools/Technologies: C#, SharePoint 2007/MOSS, BizTalk 2006 R2, .net 3.5 (WCF, WF), SQL Server 2005/2008, WSE Personal Role: Architect and Lead Developer.		
Sep 2007 – Dec 2007	Web 2.0 & PDA.	Dublin, UK
- KB/Training: extensive training of project sponsor(s) - Wrote a shrink-wrap application for realty industry in Europe that enables landlords to upload real-estate inventory data from PDA and provide customer service via Web 2.0 site. BizTalk serves as the process manager for license management, contract documentation, etc. - Used GIS for assigning property inspection to inspectors. Tools/Technologies: Visual Studio 2008, AJAX, .net 3.5 (WCF, WF, WPF), Silverlight, Compact Framework 2.0, BizTalk, PDA Personal Role: Architect and Lead Developer.		
Jun 2007 – Aug 2007	Enterprise Content Management	Las Vegas, NV, USA
- KB/Training: wrote 390 page training manual - Created a corporate ECM for 22,000+ employees in hospitality industry. Used extensive BizTalk reflection to reverse engineer BizTalk documentation for the ECM Tools/Technologies: C#, SharePoint 2007 ECM, .net 2.0/3.5, BizTalk Personal Role: Architect and Lead Developer.		
Mar 2007 – Apr 2007	Rules Based SQL Server ETL	Charlotte, NC, USA
Developed an ETL using C#, for SQL Server for a marketing fulfillment company that imports SSIS packages, applies a number of business rules and persists the imported data into Line of Business (LOB) systems. Rules are displayed in WPF/E and the exceptions, if any, are also displayed in Silverlight.		

Résumé of Abid Nasim

	Oct 2006 – Feb 2007	Enterprise Service Bus	New York, NY, USA	Implemented Enterprise Service Bus architecture involving Microsoft Dynamics, SQL Server 2005 (Integration, Reporting Services, OLAP/ADOMD.Net), BizTalk 2006 (Pipelines, EDI, Orchestration, Rule Engine), SharePoint 2003/2007, Office 2007 (Intelligent Business Framework)
	Jan 2006 – Sep 2006	Loan Workflow Application	San Ramon, CA, USA	Developed proof-of-concept applications for Loan Workflow for a large bank involving Windows 2003, WSS (2003 SP2), BizTalk (2006), Fuego, Visual Studio 2005, Office 2003 (InfoPath, Word, Excel); also developed controls for hosting Microsoft® Office documents inside a browser for seamless integration with BEA's WebLogic® Portal.
	Sep 2005 – Dec 2005	.Net Port Of Win32 Apps	San Francisco, CA, USA	Extensively used C# and .net to port C/C++ application to CLR/.net
	Jul 2005 – Aug 2005	Mobile Application for Acute Healthcare	Germany	- Used C++, BizTalk® Messaging, and BizTalk® Orchestration; also tuned the server group for performance and robustness; inbound data included flat files and EDI documents with attachments. Wrote BizTalk DICOM adapter. - Using location (GIS) information for activating and routing algorithms.
Projects (Annams Experience)	Jun 2005 – Jun 2005	Email Support for Web App	San Jose, CA, USA	- Client has extensive EJB framework for building web applications; the assignment involved employing the framework to add various email options. - Ability to read XML configuration - Ability to compose email messages and interface with SMTP server(s) Personal Role: Designer & Developer (Java: Struts, Weblogic, Oracle).
	Nov 2004 – May 2005	Loan Application Website	San Ramon, CA, USA	- Create a website for loan correspondent to file loan applications on behalf of their clients. - Ability to create web pages from templates. - Ability to distribute application session & objects across firewall boundaries Personal Role: Designer & Developer.
	Mar 2004 – Nov 2004	Extend Win32 Application.	San Francisco, CA, USA	- Extend Win32 Desktop Application used in collision repair industry on tablet PC's or PC's with stylus support - Ability to interface with salvage yards added. Personal Role: Developer (C++).
	Feb 2004 – Feb 2004	EAI	San Francisco, CA, USA	Integrate Oracle Financials, LDAP, ASP.Net, and Oracle 9i RDBMS for a large service company using Oracle 9iAS/Interconnect. Personal Role: Deployment Support for <i>Jul/Dec 03 project</i>

Résumé of Abid Nasim

Jan 2004 – Jan 2004	EAI	San Ramon, CA, USA
- Integrate iPlanet® and Loan Application Website. - Ability to validate XML payload using Schema (XSD) and persist valid data into Oracle database. Personal Role: Architect, and Developer (XML, Java, JDBC).		
Jul 2003 – Dec 2003	EAI	San Ramon, CA, USA
- Integrate Oracle Financials, LDAP, ASP.Net, and Oracle 9i RDBMS for a large service company using Oracle 9iAS/Interconnect. - Ability to interface with integration hub via web services. - Ability to transform hundreds of application documents (XML's) into application views in integration hub using XSLT - Ability to transform application views to integration (“common”) view and vice-versa - Ability to use user-defined types and functions for view transformation - Ability to queue service responses Personal Role: Architect, and Developer (PL/SQL, XML, XSLT, 9iAS).		
Nov 2001 – May 2003	EAI	San Ramon, CA, USA
- Integrate MQSeries, Mainframe (S/390), and Oracle for a large service company. - Ability to support HTTP, FTP, MQ, ODBC, and File transports [generic components]. - Ability to specify XML, EDI, Flat-File documents in BizTalk Specifications - Ability to map document specifications [BizTalk Mapper] - Ability to follow configured workflow instructions (Biztalk's input/process/output paradigm) using any of the supported transport components. - Ability to invoke business application [processes] that modify the documents Personal Role: Architect, and Developer (C++, Visual Basic).		
Sep 2001 – Nov 2001	EAI	San Ramon, CA, USA
- Integrate LDAP, 9iAS InterConnect, Messaging and Oracle Financials Applications for a large service company. - Ability to transform application data to meta-data and vice versa. Personal Role: Architect, and Developer (XML, C, Java, PL/SQL).		
May 2001 – Aug 2001	Oracle Applications Server (9iAS)	San Ramon, CA, USA
- Support 9iAS for ADP. - Supported 9iAS installation on Windows NT, Linux, Solaris, and SCO Unix. 9iAS components included Forms, Reports and Portal. Personal Role: Support (Shell Programming, Perl, Oracle Installer SDK).		

Résumé of Abid Nasim

	Oct 2000 – Jan 2001 E-Commerce Solutions Santa Clara, CA, USA • Website components for a retail website. • Ability to convert supplier feeds into XML • Ability to update retail catalog from supplier feeds. • Ability to validate retail catalog prior to web publishing. Personal Role: Designer and Developer (JSP, Java, PL/SQL, Perl).
	Aug 2000 – Sep 2000 E-Commerce Solutions Santa Clara, CA, USA • Website components for a reverse auction company offering reducing price method. • Ability to view completed orders for the suppliers. • Ability to obtain credit card approvals. • Ability to manage fulfillment process. Personal Role: Architect, Designer, Developer (JSP, Java, PL/SQL).
	Jul 2000 – Jul 2000 Visual Basic Performance Monitor San Jose, CA, USA • Application for an Internet Business To Business Company. • Ability to connect to one or more servers, and to select counters to be monitored for the server(s) using Microsoft's PDH library • Ability to select SQL Server objects on a tree view control with automatic selection or de-selection of dependent/independent entities • Ability to generate input data files with valid arbitrary values for selected tables • Ability to schedule importation of input data as a separate process and to collect performance data on selected counters for selected server(s) and displayed on a chart Personal Role: Architect, Designer, Developer (Visual Basic, C, T-SQL).
	Feb 2001 – Apr 2001 E-Commerce Solutions Sacramento, CA, USA • Website components for California State University (CSU). • Ability to register, enroll and manage students, courses, and instructors. • Ability to publish teaching material online. • Ability to provide customer care online. Personal Role: Architect, and Developer (JSP, Java, PL/SQL).
	Jan 2000 – Jun 2000 xBase To Oracle Switch II San Ramon, CA • Application for a Software company. • Ability to manipulate user interface based on information in database added • Ability to perform database input/output in bulk for better wide-area networks added • Ability to perform administrative functions added Personal Role: Architect, Designer, Developer (C++, MFC, Winsock2, PL/SQL).

Résumé of Abid Nasim

	Nov 1999 – Dec 1999 Web & OLAP Integration for Microsoft. • Application for a large Software company. • Ability to parse Internet Server log files. • Ability to generate database load scripts from parsed log files. • Ability to general Microsoft® OLAP Cubes • Ability to provide Microsoft® Excel's Pivot-Table look-a-like Interface over Web Personal Role: Programmer (VB, Perl); Integrator.
	May 1999 – Oct 1999 xBase To Oracle Switch San Ramon, CA • Application for a large Exposition Management Company. • Ability to transparently replace/switch CAD System's xBase client/server repository with Oracle 7.3. • Ability to run on multiple threads to optimize performance. • Ability to manage buffered data on client and maintain indices. • Ability to update CAD drawings in real-time based on database updates in a multi-user environment. Personal Role: Architect, Designer, Developer (C++, MFC, Visual Basic, PL/SQL).
	Jan 1999 – Apr 1999 CAD & Order Entry Integration • Application for a large Exposition Management Company. • Ability to synchronize Exposition design, layout and orders between Order Entry system and CAD-based Exposition Management system. Personal Role: PL/SQL, and C Coding.
	Jul 1998 – Sep 1998 Veterinarian Resource Scheduler • Application for a software company selling in veterinary market. • Ability to maintain veterinary hospital records. • Ability to manage hospital resources like doctors, operating rooms, dog-groomers, etc. Personal Role: Project Manager.
(Freelance Experience)	Jan 1998 – Apr 1998 Financial Reporting System • Application to provide financial transactions management and reporting for a multi-national company written in Visual Basic 5.0 with Microsoft SQL Server as backend. • Ability to integrate general ledger and payroll systems. • Ability to replicate transactions across branches on-line. Personal Role: Domain specialist and internal customer.

Résumé of Abid Nasim

	Jan 1998 – Feb 1998 Intranet Capacity Management System • Application for a large telecom utility, to Manage Intranet Servers' Capacity to handle Applications and Monitor Intranet Traffic via HTML pages, written in C (Visual C++ 5.0), Visual Basic 5.0, HTML, IDC/HTX, JavaScript, and Java. • Ability to show server geographic location maps dynamically. • Ability to accept SQL queries via HTML pages, process, and generate dynamic HTML pages to show results. • Ability to process transactions (add, edit, delete) via HTML pages. Personal Role: CGI in C and Visual Basic; GIS component.
	Jun 1997 – Oct 1997 Dispatch Management System • Application to manage operations of limousine rental business written in Visual Basic and with backend Oracle 7.3 RDBMS. • Ability to manage customers, drivers, fleet vehicles. • Ability to dispatch vehicles subject to customer priority and a host of business rules. Personal Role: Project Manager.
	Jun 1997 – Jun 1997 AS/400 LAN/WAN • Consulting assignment to connect AS/400 and Windows NT based LAN and replicating the setup in a different city to form a WAN. • Configured AS/400 to AS/400 WAN connectivity over X.25; Configured Web and SMTP under AS/400. Personal Role: Lead Consultant.
	Feb 1997 – May 1997 Telecom Customer Care System New York, NY, US • Application to provide customer care and billing solution for a telecom company, written in PowerBuilder 5.0 with Oracle 7.3 backend RDBMS. Personal Role: Project Manager.
	1995 – 1997 Linux BBS • Created a Linux based BBS (Bulletin Board Service) with HTML Interface Personal Role: Architect, Designer, & Developer.
	Feb 1996 – Nov 1996 General Ledger, Payroll & Inventory Systems • Application to provide integrated General Ledger, Payroll, and Inventory systems for a pharmaceutical company, written in Microsoft Access. Personal Role: Architect & Lead Developer.
	Jun 1994 – May 1996 Computer Based Information System • A comprehensive suite of applications to include a wide variety of computer-based solutions for a textile manufacturing company, originally written in Foxpro 2.6 for Windows and latter converted to Visual Basic 3.0, both versions with MS Access 2.0 (JET) backend. • Ability to manage financial transactions and print pre-printed international commerce forms. Ability to calculate optimal stuffing of shipment containers against given package dimensions. Personal Role: Architect & Project Manager.

Certification	MICROSOFT CERTIFICATION EXAMS COMPLETED SUCCESSFULLY :		
	Exam ID	Description	Date Completed
	534	Architecting Microsoft Azure Solutions	Jun 30, 2017
	282	Designing, Deploying and Managing a Network Solution for the Small and Medium-sized Business	Dec 21, 2006
	310	Developing XML Web Services and Server Components with Microsoft Visual Basic .NET and the Microsoft .NET Framework	Dec 29, 2004
	300	Analyzing Requirements and Defining Microsoft .NET Solution Architectures	Dec 26, 2004
	230	Designing and Implementing Solutions with Microsoft BizTalk Server 2000, Enterprise Edition	Dec 26, 2004
	306	Developing and Implementing Windows-based Applications with Microsoft Visual Basic .NET and Microsoft Visual Studio .NET	Dec 24, 2004
	305	Developing and Implementing Web Applications with Microsoft Visual Basic .NET and Microsoft Visual Studio .NET	Dec 24, 2004
	Oct 2000	XML Web Apps <i>Ikron Tech./MSDN Training</i>	San Francisco, CA
Education	Certificate.		
	Aug 1995	Theory & Practice of TCP/IP <i>LUMS</i>	Punjab
	Certificate.		
	1991	Lahore Business School <i>LUMS</i>	Punjab
Teaching Experience	Master of Business Administration (MBA). Double Major: Finance + Marketing. Electives: MIS and Operations Management.		
	1989	Hailey College of Commerce	Punjab
	Bachelor of Commerce (BCom) Major: Cost and Financial Accounting.		
	Dec 2019 – Apr 2022	ITU	Punjab
	Management of Technology and Innovation Taught undergrads and grad students of business administration and executive classes 3 to 6 credit course on Management of Technology.		
	May 17, 2001	WOW	Sacramento, CA, <i>USA</i>
	J2EE versus .Net Gave a lecture on J2EE (Java) and the new framework introduced by Microsoft known as .net (C#).		
	Feb 2001 – Apr 2001	CSU	Sacramento, CA, <i>USA</i>
	Series of Lectures on History of Programming		
	November 15, 1997	FAST	Punjab
	IEEE Sponsored Lecture: “Data Communication”		

Résumé of Abid Nasim

	October 25, 1997	Punjab University	Punjab
	Seminar: “Insight into TCP/IP”		
	May 1992	ILM	Punjab
	Six Lectures on Product Planning & Development		
Interests	I am interested in Internet of Things (IoT), DIY Electronics, 3D printing, cloud architecture, AI with a growing focus on applying these technologies to real-world problems. I also enjoy engaging in research-driven work and mentoring K–12 students, particularly in fostering early interest in STEM fields.
